[Docket No. FV97-981-3 IFR]

Almonds Grown in California; Revision to Requirements Regarding Inedible Almonds

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This document revises the administrative rules and regulations of the California almond marketing order regarding inedible almonds. Under the terms of the order, handlers are required to obtain inspection on almonds received from growers to determine the percent of inedible almonds in each lot of any variety. Handlers are then required to dispose of a quantity of almonds in excess of 1 percent of the weight of almonds reported as inedible to non-human consumption outlets. This rule allows alternative methods of determining handlers' inedible disposition obligations in such instances. It will add flexibility to the order's rules and regulations and will help ensure that the integrity of the quality control provisions is maintained.

DATES: Effective on August 1, 1997. Comments received by August 13, 1997 will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; Fax: (202) 720-5698. All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours.
